EXPERIENCE

Emilo Ventures Pvt. Ltd. — Full Stack Software Developer Intern

Jun 2026 – Present

- Built a multi-vendor e-commerce SaaS product from scratch using React.js, Node.js, Express.js, and PostgreSQL, enabling individual vendor storefronts under a centralized marketplace architecture.
- Contributed to Built dynamic storefront rendering and RESTful API integrations for Emilo's SoftCorner Gifting platform using Redux Toolkit (RTK Query), handling complex product variants and real-time inventory
- Architected a scalable backend using Node.js, Express.js, and Prisma ORM, ensuring secure access control and reliability via Vitest testing.

VNR Seeds Pvt. Ltd. — Full Stack Software Developer Intern

Feb 2026 – May 2026

- Developed and debugged frontend and backend systems using Laravel, Core PHP, Java, Flutter, and JavaScript, handling large-scale production databases across multiple projects
- Integrated enterprise platforms (Salesforce, Cotmac, Kiosk, Domino, Honeywell) and implemented QR-based inventory automation systems

SetMyCart — Full Stack Software Developer Intern

Jun 2025 – Aug 2025

- contributed to multiple projects including SkyTM (Digital Wallet System), managing end-to-end design, development, and deployment using React.js, Node.js, Bootstrap, and AI tools.

Software Developer — Member and Vice President, Center of Excellence, SSIPMT

Jun 2025 – Present

- Contributed to the development of 6 web and mobile applications for the Raipur District Administration, currently used by the Government of Chhattisgarh

EDUCATION

Chhattisgarh Swami Vivekanand Technical University

Bachelor of Technology in Computer Science and Engineering – 8 CGPA

Raipur, Chhattisgarh

Sep 2023 – Aug 2027

TECHNICAL SKILLS

Languages: C/C++, Python, Java, JavaScript, SQL,

Frameworks & Libraries: React, Express.js, Node.js, Prisma, Bootstrap, MongoDB

Tools & Technologies: Git, Linux, MySQL, RESTful APIs, NATS, PostgreSQL, Redis, Docker, DigitalOcean, Linux, Google Cloud Platform, Android Studio, VS Code, Arduino

Core Competencies: Data Structures & Algorithms, Microservices, Basic Server Administration, Database Design, Operating Systems, Computer Networks, System Architecture, Full-Stack Development, Cloud Computing

PROJECTS

myEmiloMarketplace – Multi-Tenant SaaS Product — React.js, Node.js, Express.js, PostgreSQL, Prisma

[Link](#)

- Engineered a scalable, multi-tenant e-commerce platform with centralized vendor management, product cataloging, and dynamic storefront rendering using Redux Toolkit (RTK Query)
- Developed a monorepo-based backend using Node.js, Express, and Prisma ORM, ensuring secure role-based access control and relational data management across multiple vendors

Integrated SoftCorner Gifting – Multi-Vendor E-commerce Platform — React, Express.js, PostgreSQL, Prisma, NATS [Link](#)

- Contributed to the development and enhancement of a multi-vendor e-commerce platform, working on vendor onboarding, catalog management, and other core platform features
- Implemented feature updates, resolved application bugs, and supported ONDC integration and end-to-end testing to improve platform functionality and reliability
- Assisted in integrating Razorpay, Shiprocket, Socket.IO, BullMQ, Redis, and NATS for payments, logistics, real-time updates, and background processing

Virtual Medical Training Platform – Medi Guru — React.js, JavaScript, Node.js, MySQL, PHP

[Link](#)

- Developed a web platform for virtual medical training under the Health & Family Welfare Department, Chhattisgarh, supporting role-based access for medical officers, administrators, and experts
- Enabled scheduling of online sessions, resource management, and attendance tracking

Campus Collaboration & Opportunity Platform — React.js, Node.js, Express.js, MongoDB

- platform enabling students to build project teams, recruit contributors, and manage a searchable skill-based talent database
- Developed an applicant-matching system with automated candidate ranking based on skill relevance and project experience, along with a real-time progress-tracking dashboard

CERTIFICATION

- 4 NPTEL Certificates – Data Science for Engineers using Python / Cloud Computing / Introduction to Programming in C / Programming in Modern C++
- Certificate awarded by Raipur District Collector for contribution to Government Projects
